SUMMARY

Innovative Full Stack Developer with 3 years of experience in scalable API development and database optimization. Enhanced productivity by integrating AI-assisted workflows, reducing delivery time, and contributing to mobile app features using React Native. Seeking challenging opportunities to leverage expertise in AI automations and collaborative agile development to drive impactful solutions.

EXPERIENCE

full stack developer

Relific

March 2025 - April 2026, bangalore india

- Developed and maintained scalable REST APIs using NestJS, Node.js, and MongoDB.
- Implemented authentication systems including JWT-based auth and role-based access control (RBAC).
- Designed and optimized database schemas for performance and data consistency.
- Collaborated on mobile application features using React Native (Expo).
- Integrated AI-assisted development workflows (Claude Code and other AI tools) to improve productivity and reduce delivery time.
- Worked in an agile environment, contributing to feature development under tight deadlines.

full stack developer

GigTechorbit

January 2023 - February 2025, Delhi, India

- Developed and maintained scalable backend services using NestJS and Node.js, improving API performance and response time.
- Designed and implemented RESTful APIs for user management, data handling, and system integrations.
- Worked with MongoDB for efficient data modeling, schema design, and query optimization.
- Implemented authentication and authorization mechanisms using JWT and role-based access control (RBAC).
- Collaborated with frontend and product teams to integrate APIs and ensure seamless user experience.

PROJECT

ClientStream

Relific · [lead-ai-d9na.vercel.app/dashboard](#) · February 2026 - March 2026

- Built scalable lead generation platform using Node.js and MongoDB with RESTful APIs and automation workflows
- Enabled real-time lead capture, filtering, and automated responses to improve conversion rates
- Supported 1000+ users across India with optimized backend and concurrent request handling
- Integrated secure payment gateway for end-to-end transaction flow

Tixigo

Relific · [drive.google.com/file/d/1XZuSxlHgr8dHCPak82u2b53sknVTNmY3/view](#) · August 2025 - September 2025

- Developed a ticketing system supporting real-time booking and reservation management
- Enabled group-based ticket purchasing, reducing dependency on a single payer
- Improved booking reliability by minimizing no-shows through prepaid reservation flow

Music Store Database Analysis

- Analyzed customer behavior and revenue trends using complex SQL queries to optimize sales and marketing.
- Provided actionable insights on product performance to drive business decisions.

EDUCATION

Bachelor of Computer Application

Amity university · Noida, India · 2023

- Among the top 5% of the batch
- Relevant coursework in [Relevant Subjects: Data Science, ML, etc.].

SKILLS

Languages: JavaScript, TypeScript

Backend Development: Node.js, NestJS, Express.js, REST APIs, API Design, Authentication (JWT), RBAC

Frontend / Mobile: React.js, React Native (Expo), NativeWind

Databases: MongoDB, Mongoose, NoSQL, Data Modeling

DevOps & Tools: Docker, Git, GitHub, GitHub Actions, Postman, Environment Configuration

AI / LLM & Modern Stack: LangChain, LlamaIndex, Vector Databases, Embeddings, RAG (Retrieval-Augmented Generation), AI Agents, Prompt Engineering, OpenAI APIs

Core Concepts: System Design Basics, Scalable Architecture, Concurrency Handling, API Optimization, Caching, Debugging

GCP, AWS (S3, Athena, EC2), dbt, Tableau, Power BI, Excel, GA4
